Scrum Master I, DevOps Foundation & Microsoft Azure Certificate

PROFESSIONAL SCRUM FOUNDATIONS

You will learn the mechanics of Scrum and how to overcome the complexity of dealing with team-based collaboration and self-organization. With other attendees, you work as a team in a series of Sprints to build a software application – and deal with real-life problems. The mechanics, roles, and principles of Scrum are made clear during the exercises. You will experience common missteps and misunderstandings allowing you to grow a higher awareness of the associated symptoms. In addition, you will return to work with tips to identify common pitfalls and team dysfunctions.

DEVOPS FOUNDATION

The DevOps Foundation course introduces DevOps – the cultural and professional movement that stresses communication, collaboration, integration, and automation in order to improve the flow of work between software developers and IT operations professionals. With DevOps, your improved workflows will result in an improved ability to design, develop, deploy, and operate software and services.

MICROSOFT AZURE FUNDAMENTALS

This course will provide foundational level knowledge on cloud concepts; core Azure services; security, privacy, compliance, and trust; and Azure pricing and support. The content aligns to the AZ-900 exam objective domain.
