

WIOA AZURE DATA ANALYTICS

AZURE AND POWER BI EMPOWER BUSINESSES

The Azure Data Analytics with Power BI Program is designed for any business professional to build the skills needed to gain the knowledge needed to enter the IT field as a Data Analyst working in the cloud. This bootcamp will prepare the candidate for their Microsoft Azure Fundamentals Certification.

COURSES

■ PROGRAM CERTIFICATION

Microsoft Azure Fundamentals Certification

■ MICROSOFT EXCEL ONE - foundations

In this course you will learn how to create spreadsheets and workbooks that you can use to store, manipulate, and share your data.

■ MICROSOFT EXCEL TWO - analyzing and presenting

In this course you will get hands on experience with guided labs on how to organize table data, present data as charts, and enhance the look and appeal of workbooks by adding graphical objects.

■ MICROSOFT EXCEL THREE - functions and forecasting

Learn the basics of coding source control management.

■ FUNDAMENTALS OF SQL

Many organizations use databases to store their most critical information: the information that manages their day-to-day operations.

■ MICROSOFT POWER BI DATA ANALYST

In this course, participants will explore various methods and best practices for modeling, visualizing, and analyzing data using Microsoft Power BI. By the end of this training, you will be well prepared to harness the full potential of Microsoft Power BI for data analysis, visualization, and reporting.

■ MICROSOFT AZURE FUNDAMENTALS

This training program goes beyond the basics. It prepares you thoroughly for Azure cloud computing and the AZ-900 exam. Throughout the course, you will actively engage with Azure's fundamental concepts. You'll delve into core services, architecture, pricing models, and understand the intricacies of Azure security and compliance.

■ STRENGTHSFINDER WORKSHOP

Using the Gallup Strengths online assessment, each participant will complete the evaluation to identify their top 5 natural strengths. Once strengths are discovered, explained and validated by interactive exercises attendees will know how to leverage their natural strengths to contribute to the success of the organization's team.
