

IT SUPPORT ACCELERATOR BOOTCAMP

YOUR NEXT CAREER STARTS HERE

The IT Support Accelerator Bootcamp will build the student's knowledge, understanding of best practices, and skill-based training. The skill-based training will allow them to put theory into practice and better prepare them for entering into an IT Support career. During our 9-week IT Support Accelerator Bootcamp you will learn the following technologies:

CompTIA Tech+

Designed to keep pace with industry trends and uphold our reputation for excellence. CompTIA Tech+ ensures academic technology curriculums remain relevant, comprehensive, and recognized, enhancing engagement and effectiveness in technology education.

Students gain the skills and knowledge required to:

- Understand and manage IT infrastructure and computing concepts.
- Troubleshoot and resolve common hardware and software issues.
- Recognize and address basic cybersecurity threats.
- Grasp emerging technologies like AI and IoT.
- Pursue more advanced certification pathways, such as CompTIA A+

CompTIA A+

CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to networking to virtualization and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world.

The CompTIA A+ Core Series requires candidates to pass two exams: Core 1 (220-1101) and Core 2 (220-1102) covering the following new content, emphasizing the technologies and skills IT pros need to support a hybrid workforce.

CompTIA Network+

Validates the core skills necessary to establish, maintain, troubleshoot and secure networks in any environment, preparing you for a rewarding career in networking and cybersecurity.

CERTIFIED

Prepare to take your tests for your CompTIA certifications and add important capability emblems that can increase your annual salary.

CAREER PREP

Interview prep, resume writing, and ongoing advisor guidance. We work with you until you are hired in your first role.
